Genel Moliere

Accomplished Chief Executive Officer equipped with natural leadership talents and proven business acumen. As an Environmental Engineering From Lima Peru to the United States of America, business entrepreneurship became a real journey for me since 2014-2015 with my second company (Kingdom Group International LLC)

Specializes in effectively running and continuously optimizing (strategic leader) operations.

Proven talents in building strategic partnerships with stakeholders and driving necessary change. High-achieving (CEO) with extensive executive-level experience and proven vision to lead and manage organizations to continuously grow. Running routine operations and spearheading revolutionary updates to keep teams adaptable and systems scalable for changing demands. Manage and growing business so fast, I created (GMO consulting), Tigrate International game LLC, Sol electronic INC. Maintained effective staff and resource utilization rates to balance financial and operational obligations. The highest-ranking in a company, managing the overall operations and resources of the company. Created Gride Technology was a passion to serve my community.

With many years of experience, Genel Moliere has enjoyed a diverse and successful also failure career in business with progressive growth in responsibility and challenges in various leadership functions, Genel has continuously proven.

his ability to identify opportunities to improve performance.
